We regularly assist doctors and other medical professionals with:

Employment and independent contractor agreements

We can assist you in preparing agreements for your employees and independent contractors and reviewing and negotiating contracts with hospitals.

Employment law questions

We can answer your questions regarding best practices for hiring and firing and assist you in preparing workplace policies and employee handbooks.

Non-compete issues

We can prepare non-compete agreements for your key employees and represent your practice in court when those agreements are breached.

Buying or selling a practice

We can help you negotiate and structure the sale or purchase of a medical or dental practice and prepare ownership agreements between you and your partners.

Legal compliance

We can assist your staff when regulatory questions arise to help your practice stay in compliance and run more smoothly. We provide guidance in regard to HIPAA and the Stark Law and assist you in dealing with records requests and other issues that arise in the doctor-patient relationship.

Protecting your assets

We can help you acquire and manage commercial real estate or investment property and form sub-S corporations, LLCs and PLLCs to protect your personal and investment assets and your practice.
